A. J. RITTER.

New Store.
Paul Bahn is offering to the people of Tombstone and the county in general, some of the best bargains in groceries and liquors ever offered in this county. His stock is new, fresh and desirable. Canned goods, wines, candles, in fact everything sold in a first class grocery store is being sold by him at Fairbank prices.

Unnecessary Misery.
Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. HAMBURG FIGS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. I. Mack & Co., proprietors, S. F.

Smelting was resumed by the Old Dominion Copper Company on Thursday morning, after almost eight months' idleness. There was a sufficient supply of coke on hand to run one furnace several days, and the first coke teams from Wilcox arrived yesterday. Large numbers of teams are reported on the road between Globe and Camp Thomas, all of which will reach here within a week, if the weather continues favorable.—Silver Bell.

Peto's Blood Beans for the blond.

Don't fail to see the Mirror of Ireland to-night at Schieffelin Hall.

Cameron H. King and family have gone to Yuma, which place they will make their future home.

The Albuquerque Democrat is the best newspaper published within the confines of New Mexico and Arizona.

Mr. W. D. Monmonier, deputy grand master workman, left yesterday for Wilcox, where he goes to institute a lodge of A. O. U. W.

The Mirror of Ireland will be given to-night and Monday night. The entertainment was given in this city a year ago, and gave general satisfaction.

A. Bauer, the well-known butcher and stockman, has purchased 700 fat American wethers from Vanderwalker, which he will put on the block in the Pioneer Market.

The Contentment Social Club gave a very enjoyable dancing party on Wednesday evening last at Castaneda's store. A number went down from Tombstone, who pronounce the affair a grand success.

H. J. Peto has just received a large consignment of drugs, chemicals, toilet articles, Lubin's extracts, patent medicines, etc., which makes his stock the most complete to be found in Arizona. Goods sold at city prices.

Messrs. C. E. Frederick, August Baron, J. H. Campbell, A. J. Ritter, J. H. Zeuner and S. W. Wood left Thursday for Tucson, where it is understood they will join Arizona Commandery, Knights Templar.

John O. Unbar, through S. C. Symonds, has instituted suit against S. P. Merritt and the Gazette Publishing Co., for the recovery of one thousand and odd dollars, for services rendered as editor of that paper.

Dr. C. S. Whitford and wife arrived in Tombstone last Wednesday from Butte City, Montana, and will make their permanent residence among us. The doctor was formerly city and county physician at Butte City, and comes highly recommended. He has opened an office at 106 Fourth street, near Toughnut.

A negro working on Silver Creek, N. M., recently discovered a fine body of rich gold ore there. The white miners were about to drive him out of the camp, but he took in a Mr. Cooney as a partner and forestalled them. They are now moving the five-stamp Cooney mill, which did such good service formerly, to the new mine.

Last Tuesday evening Schieffelin Hall was crowded to its utmost capacity, the occasion being the performance of Joe Bignon's Specialty Company. The Ulms and the Healey brothers were the principal attractions. The former are excellent vocalists, while the latter are unexcelled in their specialty as acrobatic song and dance men. Mr. Bignon deserves credit for furnishing such an excellent show for the amusement-loving public.

The Queen of Sheba Mining Company was organized in St. Louis last week under the laws of Missouri. The property adjoins the Vekol, near Casa Grande, Ariz., which has produced upwards of \$1,000,000, and continues a steady producer. The Queen is said to be located over the same ore body. The officers elected are: B. A. Dozier, president; Thos. Layton, vice president; Augustus Weyl, treasurer; C. D. Carroll and G. W. Spenser. The gentlemen also constitute the board of directors.

A year ago when Mr. E. W. Shortridge did his assessment work on his claims on the east side of the Santa Rita mountains, about 5,400 feet above the sea level, a few pieces of potatoes were scattered around. On his return this year he found they had taken root and grown. Those in the neighborhood of the grass used as bedding had done exceptionally well. He gathered some 40 or 50 potatoes of various sizes, some of them fully two inches in diameter. They were as clean and firm as any grown under the most favorable circumstances.—Citizen.

Mr. P. J. Murphy, who died of a congestive chill in Bisbee on Sunday last, had been a trusted employee of the Copper Queen Company for five years in a confidential and responsible position. The company and a large number of friends mourn his loss. His remains were followed to the grave on Tuesday by a large funeral cortege, consisting of Cochise Lodge No. 5, I. O. O. F., and several carriages of citizens.

Mr. H. T. Fisher, superintendent of the Ground Hog and Vizona mines, left Thursday for Butte, where it is understood, he will make arrangements for the purchase of a mill. The Ground Hog is now down to water and has large ore reserves, amply sufficient to warrant the erection of a mill. The Vizona has large bodies of low grade ore untouched, which would pay a profit if milled in the vicinity. At the present time there are sixteen chloriders at work in the Vizona.

From appearances Gila Bend will soon enjoy a good degree of the nature of a boom. With the Lower Gila Bend canal almost completed and ready to receive water; the Hall ditch in full operation, and the St. Louis ditch project ready to be started in good earnest at an early date, the prospects for the surrounding country are indeed assuring. A new and commodious hotel will be erected immediately, and many other improvements are being made and more in view.—Arizona.

Last Wednesday, Officer Wiser arrested three tramps on suspicion, and found some valuable jewelry in their possession. Believing the property to be stolen, Chief Oaks held the men pending investigation, thinking he could connect them with the recent house-breaking in this city; but one G. W. Swain, a jack-leg lawyer, in his eager endeavors to obtain a fee, got out a writ of habeas corpus and interfered with the investigation. Receiving an intimation, and the evidence at hand not being sufficient to hold the tramps, Chief Oaks discharged them of his own volition before the service of the writ. And so Swain lost his fee and the respect of the officers who were trying to do their duty.

A BIG STRIKE IN TOMBSTONE.

The "evil" of organized labor has found an exemplification here in Tombstone. The man and a boy engaged in the mechanical department of the Daily Prospector, having lived on wind pudding and promises as long as the human system could exist on that sort of a diet, on Wednesday last concluded to strike for what was due them. The result of this cold, cruel and heartless treatment on the part of the purse-proud printer, was that the Daily Prospector, under the management of Nash & Co., was obliged to suspend, and the owners were compelled to take charge of their paper and get out the issue which appeared Thursday morning. It is understood in future the following will be the staff:

A. J. Ritter, financial editor.
S. C. Bagg, business manager.
C. N. Thomas, sporting editor.
Jo. Pascholy, fashion correspondent.
Charley Bartholomew, court reporter.
James Reilly, foreign correspondent.
M. G. Crowley, snake editor.
Jo. Madero, printer.
Pat Holland, pressman.

This is a strong combination, financial as well as brainy. The very first move they made on taking charge of the organ was to get a bundle of white paper out of the express office that had been lying there a month, that soulless corporation, Wells, Fargo & Co., refusing to let the paper go out until the charges were paid. And thus it is corporations and the Knights of Labor combine to "down" great enterprises. Even threats to "burn them up," seemed to have no effect, for it is known that blackmailing in Tombstone is played out. Since the EPITAPH's exposure of the Nash methods in that respect, the Prospector has grown sickly and drooped and has finally died. The Tombstone people are a little slow, but they get there. Whether they will take kindly to Mr. Ritter's management of the opinion-peddler remains to be seen. Just at the present time the people of Cochise county do not feel very kindly to a public servant who claims in addition to the salary paid him, nearly \$7,000 in fees. They think he will want the earth next. However the people can depend on the EPITAPH to keep them posted.

The leap year party given by the young ladies of Tombstone, at Mining Exchange hall last evening, was a great social success. More than forty couples were in attendance and a most enjoyable time was had. The Trevillian orchestra furnished the music, and an elegant supper was spread. The girls gave the boys a few points on how to entertain which the latter would do well to note. Of course much of the credit for the success of the affair is due to the matrons, who assisted the young ladies in the management of the party. The reception and floor committees—in fact all the ladies—spared no pains to make the gentlemen feel at ease in the peculiar position the leap year has placed them. The occasion was one which will long be remembered.

An Albuquerque dispatch says it is stated with some degree of certainty that work on the Mesa canal will commence in ten days. Men, provisions and tools are now on the ground, the location of the camp being twenty miles north of Santa Fe. The canal will be thirty feet wide at the top and eighteen at the bottom and six feet deep, running a distance of 142 miles, touching the southern edge of Rio Arriba county, passing south through Santa Fe, Bernalillo, Valencia and Socorro counties, and retapping the Rio Grande at a point near the town of Socorro. Over 1,500,000 acres of now useless land will be reclaimed by this canal. The supply of water will be inexhaustible, as the canal taps the Rio Grande at the starting-point and immense storage reservoirs will be built at intervals along its line. Guy Robertson, of Kansas City, is manager of this great enterprise, the construction of which will cost over \$1,000,000.

McNeil, the notorious horse thief and stage robber and supposed murderer, escaped from the Pinal county jail Wednesday morning, having recently escaped from the Phoenix jail, and boasting that he would soon leave that one. He was heavily shackled and confined under close guard in his cell. On that morning for the first time he was allowed in the jail yard, the sheriff with him. The gates by some oversight were left open, and he darted out when the sheriff's attention was diverted, and although he was shackled, has so far eluded pursuit.

The resignation of Major-General Alfred H. Terry, on account of ill health, opens the way for two promotions in the higher ranks of the army. The ranking Brigadier is General Crook, and the ranking Colonel is Grierson, now in command of the district of New Mexico. It is to be hoped that Crook, the incompetent, may not be the fortunate one.

Use Peto's Bile Beans for biliousness.

THE MIRROR OF IRELAND.

Anything on the stage with an Irish flavor to it takes, and Sullivan's "Mirror of Ireland" entertainment is no exception. The standpoint of the audience's appreciation is the fair one to judge a performance of this sort by, and the large number at Koch's Opera House last night rendered a favorable verdict. The views in Ireland were really fine, and the character sketch interludes by Mr. Dan Sullivan and Josie Morris Sullivan were funny and provoked hearty applause.—Sacramento Bee.

The Hildebrand cattle seizure cases, which have attracted so much attention for the past few days, were disposed of yesterday, the case having been submitted to Judge Barnes, a jury being waived. The findings and remarks of the court were received with commendation by all parties who have become familiar with the facts. It could be seen a calamity to Pima county had the law denied ranchmen upon the line the privilege of turning back into the United States cattle which merely graze over the line. It is not possible to drive every animal that steps over an imaginary line past some custom house, nor is that necessary to protect the revenues. The action of the court officers in this case shows conclusively that the honest cattle grower will be protected in his property, but woe to the smuggler; the man who really imports stock with the purpose of defrauding the government of its revenue—Star.

Four masked men, heavily armed, entered the Citizen Bank, Loma Stone, Indian Territory, last Saturday, and demanded that Cashier W. T. Reynolds hand over the coin. Reynolds pretended to do so, but slammed the safe door and turned the lock. He was shot dead at once by one of the men. They then sacked about \$20,000. The robbers then failed to open the safe; and the pistol shot attracted attention, so that when about to escape with the booty, an armed body of men appeared and a fight was started, and one of the robbers killed. The other three were pursued and captured, the leader strung up and the remaining two were turned over to the United States authorities. All the money was recovered.

Besides he has the largest and best selected stock of best makes of ladies', gents' and children's shoes ever displayed in this city. Genuine hand-sewed work at less than city prices. Give him a trial and see if this statement is not correct.

The celebrated J. H. White butter can be bought only at Wolcott's. This is gilt edge.
